Art Unit:

Claims 1-18 are presented for examination.

The amendments and declaration filed on December 16, 1998 have been received and entered.

Claims 1-16 are rejected under 35 U.S.C. 103 as being unpatentable over Ercoli et al. And Derwent Abstract 93-104198.

Ercoli et al. And the Derwent Abstract both teach the use of the claimed compound in combination with the claimed type carriers in an emulsion composition. The above reference makes clear that the claimed compound has been previously in an emulsion form. Applicant's arguments and declaration have been carefully considered, and although found persuasive for overcoming the rejection of September 16, 1998 but are not deemed to be persuasive for overcoming the newly cited references. For the above reasons the prior rejection sustains.

1. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner Fay whose telephone number is (703) 308-4604.
